

Node-RED SERVICE

TEAM ID	PNT2022TMID08036
PROJECT NAME	SmartFarmer - IoT Enabled Smart Farming Application

The screenshot displays the Node-RED web interface in a browser. The address bar shows the URL `127.0.0.1:1880/#flow/7775fb7afc6f381a`. The interface includes a left sidebar with a 'filter nodes' search bar and two categories of nodes: 'common' (inject, debug, complete, catch, status, link in, link call, link out, comment) and 'function'. The main workspace shows a flow named 'hello' with three nodes connected in sequence: a green '[get] /hello' node, an orange 'template' node, and a green 'http' node. The right sidebar contains an 'info' panel with a 'Search flows' input, a list of flows (including 'hello'), and a detailed view of the selected flow. The detailed view shows the flow ID '7775fb7afc6f381a' and a message box stating: 'You can confirm your changes in the node edit tray with `ctrl-enter` or cancel them with `ctrl-escape`'. The bottom of the image shows a Windows taskbar with various application icons and a system clock indicating 11:39 AM on 19-Nov-22.
